

THE THREE-WEEK FESTIVE PLAN

What to make and when, without a shoot. Written for Diwali, which falls in early November, and reusable for any festive push.

WEEK THREE: DECIDE

- ☐ One offer, in one line
- ☐ One festive accent colour added to your palette
- ☐ One key visual idea, approved on one page
- ☐ Marketplace banner deadlines checked

WEEK TWO: MAKE

- ☐ Hero film, 10 to 15 seconds, from the real pack
- ☐ Gift pack or bundle image
- ☐ Key visual in vertical, square and wide

WEEK ONE: CUT AND SCHEDULE

- ☐ Six-second ad cut and two alternate openings
- ☐ Listing banner and listing image
- ☐ Stories, WhatsApp creative and email header
- ☐ Festival-day greeting and the thank-you post, both scheduled

THE MISTAKE TO AVOID

Abandoning your brand colours for generic gold. A festive post should still be recognisable as yours with the logo covered.
