

THE LOOKS-CHEAP AUDIT

Open your listing, your website and your Instagram grid side by side. Score one point for every line that is true. Under twelve, the product looks cheaper than it is.

CROPS AND SCALE

- ☐ The product fills the frame in every image
- ☐ Margins are the same across images
- ☐ At least one image shows the product in a hand
- ☐ Nothing is cut off at the edge

TYPE

- ☐ No more than two typefaces anywhere
- ☐ The same typeface on pack, site and posts
- ☐ Text on images is readable on a phone
- ☐ Headlines are six words or fewer

COLOUR AND LIGHT

- ☐ Brand colours are written down as hex codes
- ☐ The same red, blue or green appears everywhere
- ☐ One shadow direction across all product images
- ☐ No yellow indoor light, no grey muddy shadows

AS A WHOLE

- ☐ The grid looks like one brand when you squint
- ☐ The listing and the website use the same hero image
- ☐ The ad matches the page it lands on
- ☐ A stranger could name your brand colours

FIX IN THIS ORDER

Crops first, it is free. Then colours and type, it is one page. Then light, which needs a system.
