

SHOOT OR NO SHOOT

An honest split, from a studio that builds films in motion. Tick what applies. The column with more ticks is your answer, and a mix is normal.

HIRE A CAMERA CREW WHEN

- ☐ A real person has to be believed
- ☐ The place is the product
- ☐ Food has to be eaten, clothes have to be worn
- ☐ You need a library of real lifestyle moments

BUILD IT IN MOTION WHEN

- ☐ The pack or device is the hero
- ☐ The product does not exist yet
- ☐ You need to show the inside, a mechanism or data
- ☐ You need many variants that must match exactly
- ☐ The deadline is under two weeks

IF YOU MIX THEM

- ☐ Shoot people and places once, in your brand's light and colours
- ☐ Build product films and variants in motion around that footage
- ☐ Agree one colour grade so both halves look like one brand

THE ONE QUESTION

What has to be real for my buyer to believe it? Film that. Build the rest.
